

Recreation Directors Report November 29 – December 26, 2017

Moved all Soccer Balls from coaches closet at park to Storage unit at Boro Hall to prevent winter damage.

Only 2 first aid kits returned after season by Soccer coaches. Need remainder of kits to be returned so we can use them for Basketball and Street Hockey.

Removed remaining Little League sponsor signs from Steinhart Field.

Checked State contract for Toro Side by Side and Water Slides. None available on state contract.

Completed all paperwork required and ordered Toro Side - by- Side and Rand Field Groomer from Stoor Tractor. Toro Side by Side ordered on ESC Contract and Rand Field Groomer ordered open market utilizing this year's funds.

Attended all day Land-Stewardship conference sponsored by NJ Parks and Recreation association at Millstone watershed in Pennington NJ. Representatives from Green Acres and NJ Trails discussed Grant opportunities and presented an overview of stewardship Policies and opportunities.

Joined New Jersey Parks and Recreation Association and National Parks and Recreation Association.

Sink Hole reopened at lower end of pool next to Broad Street Properties. Filled in within 24 hrs. by DPW.

Prepared Bulling policy for presentation, discussion, adoption, and implementation by Recreation Department in 2018.

Musco Lighting returned to park to work on last remaining non-working Light. Replaced all above ground Ballast, igniter, cap, fuse rail and fuses and internal wiring for this light. Unable to fix existing problem. Determined that there is an apparent underground issue between the pole and the control box in the garage. Underground problems are not covered by Warrantee nor repaired by Musco. Recommended contacting an electrician. Possibly need to run new wiring to pole. Up to this point all work has been covered by Warrantee.
